

### BYOD Checklist

#### Essential Items for Week 1

- Follow the [instructions](#) for your PC or Mac to connect to the KHS Wifi network. If you are having password issues – take a look at the [KHS Password Guide](#).
- Check if your device is BitLocker encrypted. If it is you must save your recovery key so that in the event of a repair your data is not lost. (Or you may turn BitLocker off) [See details here](#). You may ask the school to securely store your BitLocker key.
- Test you can browse to the <https://byod.kapundahs.sa.edu.au> website.
- Download and Install the preferred web browser Google Chrome from the BYOD Software page, unless already installed. [Set it as your default browser](#).
- Open <https://byod.kapundahs.sa.edu.au> in Chrome and set it as a bookmark.
- Go to the BYOD Links page and click on [Daymap](#). Check that you can login.
- Set this as a bookmark too, so you can get to Daymap at home easily.
- In Chrome, you may wish to turn on the bookmarks bar, click on...  
⋮ > Bookmarks > Show Bookmarks Bar.
- Login to [Learnlink](#) (and change your password if needed)
- Click the Email link from the Learnlink page and ensure you can check your emails.
- Install Office 365 from the BYOD Software page (or follow instructions from home).
- Activate Office 365 (using Learnlink credentials) and ensure you can open word.

#### Additional Items for Week 1 or 2

- Sign-In to and Setup OneDrive (instructions are available on the Office 365 Software page on the BYOD website)
- Install a Printer using Papercut Software on the [BYOD Software](#) page.
- Download and install the Common Adobe Creative Cloud apps (or just Creative Cloud Desktop)  
(You will need your Learnlink account details to sign-in to Creative Cloud)  
(Adobe Creative Cloud can also be installed from home - Instructions available via KHS Website)

Other Accounts and Software will be setup when required for other subjects.
